Dear George:

Reference our meeting at your place on 30 November wherein personnel from your organization, our office, SAC, and Headquarters USAF Intelligence Section firmed up requirements for read out equipment for Systems I and III.

In accordance with agreement reached at above meeting, request you procure the following additional equipment:

<u>Type Rack</u>	<u>Qty to Procure</u>
A	One (1)
B1	One (1)
B2	One (1)
C	Two (2)
D	Two (2)
E	Four (4)
F	Two (2)

In addition to the above and with reference to the equipment you have procured for Headquarters USAF Intelligence Section, you are authorized to charge to our program, the additional funds required for this equipment. This cost will constitute the difference between the funds made available to you by Headquarters USAF and the price which you will pay the Contractor for the equipment.

For information, it is advised that I have requested Major Nichols, Headquarters USAF, to furnish me shipping instructions for his portion of the equipment. I will forward above shipping instructions to you as soon as I receive them.

Sincerely yours,

S. W. Brewer
